Conversations Day Programme

Hi,

Welcome to the CMS Pioneer Conversations Day 2022. It is great to have you joining us whether onsite in Oxford or Penrith, or online from where ever you are in the world. We are excited about the day and the wealth of speakers and workshop leaders joining us to share their wisdom and expertise. We hope this will be a day of conversations, both more formally in the talks and workshops, but also and equally importantly, in the in-between spaces. This may be easier onsite, but we hope the space on wonder.me will provide an opportunity to do something similar online if you want to.

In this programme you will see the pattern for the day in Oxford, Penrith and online. Do check the relevant page and have a think about the workshops you would like to attend. We've also provided information about the main speakers and workshop leaders. Do check out some of the site-specific details which will help you to get the most out of the day.

It is clearly not going to be possible to attend all the workshops and talks, but we will do our best to make recordings available after the event. There will also be an edition of *Anvil* Journal picking up on the themes of the day around thriving and sustainability which will come out later in the year.

We hope that it will be a day which stimulates conversations which continue long past the end of the event. This theme of thriving in sustainable ways is going to be vital for our communities, groups, organisations and churches as we navigate many of the challenges of our times.

The conversations day is organised by the CMS Pioneer Team. If you'd like to know about the different courses and programmes we offer do check out the website (<https://pioneer.churchmissionsociety.org>) and talk to a member of the team of the day.

One more thing – for the reflective worship at the end of the day you will need a 30cm piece of string, wool or ribbon. If you're joining us online you will need to provide your own.

Look forward to seeing you

Cathy, Lori, Richard and James

Just a reminder that we will provide tea and coffee but participants need to bring their own packed lunch to eat onsite. There are very few places close to the Oxford centre to buy lunches (Lidl supermarket next door has limited supply of sandwiches etc) and the local pub shut down during lockdown. So, please come prepared.

Parking in our car park is on a first come first served basis. If you need to park on side streets, the roads in the area that usually allow parking are: Druce Way, Ashmole Place, Cuddesdon Way, Comfrey Road and Transport Way. Check where you park is legal. Alison Webster - Sustainable communities: Cultivating and Nurturing Habits to challenge power and change the world (*Speaking in Oxford and Online*)

Human connection and relationship are crucial to building sustainable communities, but how to do we cultivate the habits of making and maintaining relationships, developing new leaders, and enabling a diversity of people to tell their stories, challenge power imbalances and change the world for the better?

She is author of numerous resource books that draw together social action and contemplation. She has a longstanding interest in identity issues – particularly gender, race, sexuality and disability, and is author of books on gender, sexuality, health and wellbeing. From a beginning in London, her route to Mirfield went via a Classics degree and Masters in Theology from Oxford, teaching in colleges and universities in Japan and England, ordination and a move from ministry in secular employment into theological education in Cuddesdon and Mirfield. Her particular interests are in Christian and Buddhist spirituality; her most recent book is *Seeking the God Beyond: A Beginner's Guide to Christian Apophatic Spirituality*.
